Every job title is a clickable link. The grey line under it is the same address in plain text, so you can type or copy it. Open the page, then press Apply (or Easy Apply) there. The Contact column shows an HR or careers email when the posting published one. LinkedIn does not publish emails, so there it shows the recruiter who posted the job; click the name to message them. Applicant counts are capped at 200 by LinkedIn. Saudi Indeed returned very few results in this window, so most Saudi jobs here come from LinkedIn.
